

TABLE OF CONTENTS

LIST OF FIGURES	xi
LIST OF TABLES.....	xiv
ABSTRACT.....	xvi
Chapter 1 INTRODUCTION	1
1.1 Brief Introduction to the Late Postclassic in Northern Yucatán	2
1.2 Late Postclassic Debates	3
1.2.1 The Decadent View	4
1.2.2 The Revivalist Views	4
1.2.3 The Political Economy Views	4
1.2.4 The Collective Reciprocity View	5
1.3 The Problem.....	5
1.4 The Objectives of the Research	7
1.5 Outline of the Methodology	8
Chapter 2 THE LATE POSTCLASSIC: A VIEW FROM THE NORTH	10
2.1 The Late Postclassic in Northern Yucatán	10
2.1.1 Political Organisation of Northern Yucatán.....	10
2.1.2 The Institution of Tribute	11
2.1.3 Markets and other Economic Aspects	12
2.2 Current Research	12
2.2.1 Late Classic at Tikal and Palenque.....	13
2.2.2 The Late Postclassic.....	13
2.3 Explanatory Models of Ceramic Production Organisation	15
2.3.1 The Mercantile Production-Distribution Trajectory	15
2.3.2 A Dichotomous Ceramic Economy.....	16
2.3.3 The Tributary Mode of Production	16
2.3.4 Production for Rituals, Ceremonies, Gifting, and Feasting	16
2.3.5 Calendrically Shifting Production Location	17
2.4 Summary.....	17
Chapter 3 CERAMICS OF THE LATE POSTCLASSIC.....	18
3.1 The Northern Yucatán Late Postclassic Ceramics, Period, and Region.....	18
3.1.1 Tases and Eastern Tases Ceramic Spheres.....	18
3.1.2 The Period and Region	18
3.1.3 Ceramic Classification	18
3.1.4 Origins of Northern Yucatán Late Postclassic Ceramics	18
3.1.4.1 Red-slipped Wares	18
3.1.4.2 Unslipped Wares.....	19
3.2 Description of the Late Postclassic Northern Yucatán Ceramics.....	19
3.2.1 Mayapán Red Ware.....	19
3.2.2 Mayapán Unslipped Ware.....	22
3.2.3 Tulum Red Ware.....	22
3.2.4 Peto Cream Ware	24
Chapter 4 THE GEOLOGICAL SETTING	26
4.1 The Geological Setting of the Study Region	26
4.2 The Rocks within the Region.....	28
4.3 Other Surface Features	28
4.3.1 Cenotes	28

4.3.2	Calcrete (Caliche) Layer.....	29
4.3.3	Sascab	29
4.3.4	Alttillos and Planicies	29
4.4	Clays within the Region.....	29
4.4.1	Kaolinite	30
4.4.2	Red Soils and Clays.....	30
4.4.3	Palygorskite.....	30
4.4.4	Smectite	31
4.4.5	Kaolinite-montmorillonite.....	31
4.4.6	Montmorillonite.....	31
4.4.7	Montmorillonite-kaolinite.....	31
4.5	Summary.....	31
Chapter 5 RESEARCH METHODS		32
5.1	Technology as Cultural Production	32
5.2	Outline of the Methodology	33
5.3	Sampling Strategy	34
5.3.1	Sites Selected	34
5.3.1.1	Case Study A	34
5.3.1.2	Case Study B	36
5.3.2	Samples Selected	37
5.3.2.1	Ceramics Selected.....	37
5.3.2.2	Sampling Strategy	37
5.4	Collection of Raw Materials from the North-central Area.....	38
5.5	Preliminary Survey of Pottery Samples.....	42
5.5.1	Hypothesis A: Unslipped Jars	42
5.5.2	Hypothesis B: Red-slipped Mama Jars	43
5.5.3	Hypothesis C: Eastern Red-slipped Payil Items	43
5.6	Petrographic Analysis.....	43
5.6.1	Petrographic Analysis of Hand Specimens	44
5.6.2	Petrographic Analysis of Thin Sections	44
5.7	Chemical Analysis.....	44
Chapter 6 RESULTS OF HAND-SPECIMEN ANALYSIS		45
6.1	Attributes, Scales, and Measurements	45
6.2	Types of Inclusions Observed.....	46
6.2.1	Micrite.....	46
6.2.2	Sparry Grains.....	47
6.2.3	Dark Particles	48
6.2.4	Single Crystals	49
6.3	Hand-specimen Fabrics.....	49
6.4	White Micrite Fabrics.....	49
6.4.1	Micrite-Medium-W (WM-m-W) Fabric	49
6.4.2	Micrite-Medium-W-hard (WM-m-W-h) Fabric.....	51
6.5	Sparry Fabrics.....	51
6.5.1	Spar-Coarse-W (SP-c-W) Fabric.....	51
6.5.2	Spar-Medium-W (SP-m-W) Fabric.....	51
6.5.3	Sparry-Coarse-B (SP-c-B) Fabric	51
6.6	Dark Particles Fabrics	51
6.6.1	Dark-Coarse/Medium-W (GM-cm-W) Fabric	51
6.6.2	Dark-Coarse-R/B (GM-cm-R/B) Fabric.....	51
6.7	Single-crystal Fabrics.....	52
6.7.1	Crystal-Fine-R/B (XT-f-R/B) Fabric	52
6.7.2	Crystal-Coarse-R/B (XT-c-R/B) Fabric.....	52
6.8	Associations between Hand-specimen Fabrics, Sites, and Ceramic Typology	52
6.8.1	North-central Sites	52
6.8.2	Eastern Sites.....	53

6.9	Key for the Assignment of Fabrics: Procedure for the Characterisation into Fabrics.....	53
6.10	Hand-specimen Analysis of Local Sascab Materials.....	55
6.11	Summary.....	55
Chapter 7 RESULTS OF THE CHEMICAL ANALYSIS.....		56
7.1	The Structure of the Data	56
7.1.1	Cluster Analysis	57
7.1.2	Principal Components Analysis.....	57
7.1.3	Bivariate Plots	58
7.1.4	Mahalanobis Distance.....	58
7.1.5	Discriminant Analysis.....	59
7.1.6	Mahalanobis Distance Test	59
7.2	Location of the Sources of the Chemical Groups.....	59
7.3	The Chemical Groups.....	61
7.4	Chemical Group 1 (n=82).....	63
7.4.1	Associations between Group 1, Ceramic Typology, and Sites.....	63
7.4.2	Sources of Group 1 Vessels.....	63
7.5	Chemical Group 2 (n=34).....	66
7.5.1	Associations between Group 2, Ceramic Typology, and Sites.....	67
7.5.2	Sources of Group 2 Vessels.....	68
7.6	Chemical Group 3 (n=8).....	68
7.6.1	Associations between Group 3, Ceramic Typology, and Sites.....	68
7.6.2	Sources of Group 3 Vessels.....	68
7.7	Chemical Group 4 (n=11).....	69
7.7.1	Associations between Group 4, Ceramic Typology, and Sites.....	69
7.7.2	Sources of Group 4 Vessels.....	69
7.8	Chemical Group 5 (n=16).....	70
7.8.1	Associations between Group 5, Ceramic Typology, and Sites.....	70
7.8.2	Source of Group 5 Vessels.....	70
7.9	Conclusions.....	71
Chapter 8 RESULTS FROM PETROGRAPHIC THIN-SECTION ANALYSIS		72
8.1	Types of Inclusions Found.....	73
8.1.1	Calcite	74
8.1.1.1	Micrite.....	74
8.1.1.2	Dark Micrite	74
8.1.1.3	Sparite.....	74
8.1.1.4	Single Crystals	74
8.1.1.5	Skeletal Remains	74
8.1.2	Dolomite	75
8.1.3	Non-calcareous Particles.....	76
8.1.3.1	Quartz	76
8.1.3.2	Grog	77
8.1.3.3	Argillaceous Particles with Embedded Crystals	77
8.2	Petrographic Fabric Classes.....	77
8.2.1	Scales and Measurements Used for the Description of Inclusions in Thin Section	78
8.2.2	Scales and Measurements Used for the Description of the Microstructure and Micromass in Thin Section	78
8.2.3	The Fabric Classes	79
8.3	Dolospar Fabric Classes.....	81
8.3.1	Dolospar-W-Coarse (DS-W-c) Fabric Class.....	82
8.3.2	Dolospar-W-Medium (DS-W-m) Fabric Class	82
8.3.3	Dolospar-W-Hard (DS-W-mc-h) Fabric Class	82
8.3.4	Dolospar-B-Coarse (DS-B-c) Fabric Class.....	83
8.3.5	Associations between Dolospar Fabrics, Sites, and Ceramic Typology	83
8.4	Finely Crystalline Sparite Fabric Classes.....	85
8.4.1	Sparite-W/B-Coarse/Medium (CS-W/B-cm) Fabric Class.....	85
8.4.2	Associations between Sparite Fabrics, Sites, and Ceramic Typology	86

8.5	Micrite Fabric Class	86
8.5.1	Micrite-W-Medium (CM-W-m) Fabric Class	87
8.5.2	Associations between Micrite Fabrics, Sites, and Ceramic Typology	88
8.6	Medium and Coarsely Crystalline Calcite Fabrics Classes	88
8.6.1	Calcite-Micrite-01-Coarse (CX-CM-01-c) Fabric Class.....	88
8.6.2	Calcite-Micrite-02-Coarse (CX-CM-02-c) Fabric Class.....	88
8.6.3	Sparite-m-W/B-Coarse (CSm-W/B-c) Fabric Class.....	89
8.6.4	Calcite-Quartz-B/R-Fine (CX-QZ-B/R-f) Fabric Class	89
8.6.5	Calcite-Grog-B/R-Coarse (MX-GROG-B/R-c) Fabric Class	89
8.7	Medium and Coarsely Crystalline Dolomite Fabrics Classes	92
8.7.1	Dolomite-W/B-Medium (DX-B/W-m) Fabric Class	92
8.7.2	Dolomite-Calcite-B-Coarse (DX-CX-B-c) Fabric Class	92
8.7.3	Dolomite-Calcite-Medium-Hard (DX-CX-m-h) Fabric Class	92
8.7.4	Singleton Fabrics	92
8.7.5	Associations between Single-crystal Fabrics, Sites, and Ceramic Typology	94
8.8	Fabric Classes with Skeletal Remains	95
8.8.1	Bioclast-W-Medium (CH-W-cm) Fabric Class	95
8.8.2	Bioclast-B-Coarse (CH-B-c) Fabric Class.....	95
8.8.3	Singleton Fabrics	96
8.8.4	Associations between Bioclast Fabrics, Sites, and Ceramic Typology	96
8.9	Dark Micrite Fabric Classes	96
8.9.1	DarkMicrite-Micrite-Coarse (CG-CM-W-c) Fabric Class.....	96
8.9.2	DarkMicrite-Micrite-Medium Fabric Class	97
8.9.3	Associations between Dark Micrite Fabrics, Sites, and Ceramic Typology.....	97
8.10	Petrographic Analysis of Collected Clays and Marls.....	97
8.11	List of Samples	99
8.12	Summary.....	106
Chapter 9 LATE POSTCLASSIC CERAMIC PRODUCTION TECHNOLOGY		108
9.1	Reconstructing Production: North-central Red-slipped Mama.....	109
9.1.1	Raw Materials Selection for Mama	109
9.1.1.1	Clays	109
9.1.1.2	Coarser Inclusions	112
9.1.2	Raw Materials Transportation.....	114
9.1.3	Raw Materials Processing for the Production of Mama	114
9.1.3.1	The Use of Temper	114
9.1.3.2	Processing the Clay	114
9.1.4	The Fabric Classes of Red-slipped Mama Samples.....	115
9.1.5	Red-slipped Mama Potters' Groups	117
9.1.5.1	Summary.....	119
9.1.6	Forming and Finishing Techniques of Red-slipped Mama.....	119
9.1.6.1	Use of a Concave Mould or Support	120
9.1.6.2	Use of a Convex Mould	121
9.1.6.3	Coiling	121
9.1.6.4	Surface Analysis of Bowl I (# 9150, Table 8-18)	121
9.1.6.5	Surface Analysis of Cajete I (# 9151, Table 8-18)	123
9.1.6.6	Surface Analysis of Cajete II (# 9152, Table 8-18)	124
9.1.6.7	Surface Analysis of Large Slipped Jar I (# 9153, Table 8-18).....	125
9.1.6.8	Surface Analysis of Large Slipped Jar II (# 9154, Table 8-18).....	126
9.1.7	Summary.....	127
9.2	Reconstructing Production: North-central, Plain Navula	127
9.2.1	Raw Materials Selection for Navula: Coarser Inclusions.....	127
9.2.2	The Fabric Classes of Plain, Unslipped Navula Jars	129
9.2.3	Plain, Unslipped Navula Potters' Groups	130
9.2.4	Summary.....	132
9.3	Reconstructing Production: North-central, Unslipped, Striated Yacman.....	132
9.3.1	Raw Materials Selection for Yacman: Coarser Inclusions.....	133
9.3.2	Raw Materials Selection and Processing for Yacman: Hi'.....	133
9.3.3	The Fabric Classes of Striated, Unslipped Yacman Samples.....	134

9.3.4	Striated, Unslipped Yacman Potters' Groups	135
9.3.5	Summary	136
9.4	Firing of Samples from North-central Sites	136
9.4.1	Effects of Firing on Calcite Inclusions	137
9.4.2	Effects of Firing on Dolomite Inclusions	138
9.4.3	A Firing Experiment with Raw Materials from the North-central Area	138
9.4.4	Effects of Firing on Clays	140
9.4.4.1	Firing at 700°C for 45 Minutes	142
9.4.4.2	Firing at 600-650°C for Five Hours	142
9.4.5	Discussion	142
9.5	Fabric Classes of the Eastern Sites in this Study	143
9.6	Summary	145
Chapter 10 PATTERNS OF LATE POSTCLASSIC CERAMIC PRODUCTION		147
10.1	Technological Traditions	147
10.1.1	Sascab Red-slipped Tradition	147
10.1.1.1	Ethnographic Data	148
10.1.2	Translucent Rock Cooking Pot Tradition	149
10.1.2.1	Ethnographic Data	150
10.2	Ceramic Production Organisation at North-central Sites	150
10.2.1	Production Organisation	150
10.2.2	Dolospar Fabrics: Production Location	153
10.3	Movement of Pots	155
10.3.1	Short-distance Movement of Pots	155
10.3.2	Long-distance Movement of Pots	156
10.4	Evaluating the Hypotheses	157
10.4.1	Hypothesis A: Unslipped jars found at the different sites were locally produced at minor centres and at Mayapán	157
10.4.2	Hypothesis B: In the north-central area, red-slipped pots (Mama) were produced at one production locality that supplied the rest of the north-central centres	157
10.4.3	Hypothesis C: Payil, the fine-grained red-slipped ceramic type commonly found at eastern coastal sites, when found at north-central sites, was locally made	157
10.5	Summary	158
Chapter 11 DISCUSSION AND CONCLUSIONS		159
11.1	Discussion of Findings: Research Question 1	159
11.2	Discussion of Findings: Research Question 2	159
11.3	Discussion of Findings: Research Question 3	160
11.4	Discussion of Findings: Research Question 4	160
11.5	Discussion of Findings: Research Question 5	162
11.5.1	The Case for Market Transactions	162
11.5.2	The Case for Gifting	163
11.5.3	The Case for Rituals and Ceremonies	164
11.5.4	The Case for Tribute	164
11.6	Discussion of Findings: Research Question 6	164
11.6.1	The Mercantile Production and Distribution Model	165
11.6.2	The Tributary Mode of Production Model	165
11.6.3	The Ritual Mode of Production Model	165
11.6.4	The Calendrically Shifting Production Location Model	165
11.6.5	The Dichotomous Ceramic Production Model	165
11.6.6	Summary of Comparison between Findings and Current Ceramic Production Models	166
11.7	Conclusions	166
11.7.1	Ceramic Production at Mayapán	166
11.7.2	Ceramic Production in the North-central Communities	166
11.7.3	Distribution and Exchange Mechanisms	167
11.7.4	Technology and Traditions	167
11.7.5	Site Integration	167

11.8 Future Directions	168
BIBLIOGRAPHY	171
APPENDIX A: XRD ANALYSIS OF THE CLAY PORTION OF A MARL FOUND AT MAYAPAN (S#11)	181
APPENDIX B: NEUTRON ACTIVATION ANALYSIS OF LATE POSTCLASSIC MAYAN CERAMICS FROM THE NORTHERN YUCATAN PENINSULA, MEXICO	187
APPENDIX C: BULK XRD AND CLAY ANALYSES OF A NAVULA, MAYAPAN (#256) POTTERY SAMPLE.....	219
APPENDIX D: DETAILED DESCRIPTION OF FABRIC CLASSES IN HAND SPECIMEN	229
APPENDIX E: DETAILED DESCRIPTION OF FABRIC CLASSES IN THIN SECTION	234
