

Table of Contents

List of Figures	viii
List of Tables	xi
List of Abbreviations	xiii
Abstract	xv
Chapter 1 Introduction	1
1.1 Aims of Faunal Analysis at the Haimenkou Site	1
1.2 Brief Introduction to the History of Zooarchaeology in China and Yunnan Province	2
1.3 Date and Citation Style	4
1.4 Structure of the Book	4
Chapter 2 Environmental Setting and Archaeological Background of the Haimenkou Site	5
2.1 Introduction.....	5
2.2 Site Location and Environmental Setting	5
2.3 Excavations at the Site	6
2.4 Summary	24
Chapter 3 Procedure of Faunal Analysis	25
3.1 Introduction.....	25
3.2 Material for Analysis.....	25
3.3 Identification and Recording.....	25
3.4 Problems Arising before Analysis.....	26
3.5 Summary	29
Chapter 4 Range and Relative Importance of Identified Taxa	30
4.1 Introduction.....	30
4.2 Methods of Quantification	30
4.3 Results and Analysis	33
4.4 Summary	58
Chapter 5 Skeletal Part Representation and Bone Modification	59
5.1 Introduction.....	59
5.2 Skeletal Part Representation	59
5.3 Bone Modification	78
5.4 Summary	94
Chapter 6 Kill-off Patterns for Domestic Animals	100
6.1 Introduction.....	100
6.2 Methods.....	100
6.3 Results and Analysis	103
6.4 Summary	114
Chapter 7 Discussion and Conclusion	116
7.1 Introduction.....	116
7.2 Human-Animal Relationships at Haimenkou	116
7.3 Subsistence Economy of the Haimenkou People	117
7.4 Communication Networks Linking Haimenkou and Other Regions in Prehistoric China	118
7.5 Directions for Future Research	119
Bibliography	120
Appendix 1 Recording System for the Faunal Assemblage from Haimenkou	134
Appendix 2 Measurements of Animal Bones from Haimenkou	140
