List of Figures.....	xi
List of Tables.....	xv
1. Introduction.....	1
1.1. Objectives, methods and sampling	1
1.2. Theoretical framework.....	3
1.3. A critical revision of the social hypothesis: a state of the art.....	3
1.4. PBAs and the generation of new explanatory hypotheses.....	5
2. Towards a PBA use-wear characterisation method	7
2.1. Theoretical and methodological framework	7
2.1.1. Archaeological questions and experimental goals	7
2.1.1.1. The formulation of a well-founded hypothesis related to the possible PBA uses.....	7
2.1.1.2. The formulation of hypothesis concerning which could be the diagnostic dependent variables or attributes that characterise the PBA use-wear traces.....	7
2.1.1.3. The formulation of a methodological framework that allows linking the independent variables and the attributes using the data generated in the first two points	7
2.1.1.4. The continuation of the process of corroborating/refuting the hypotheses suggested in the first point through the archaeological material analysis by means of the methodological framework created in the third point.....	8
2.1.2. Analogy as Heuristics.....	8
2.2. Hypothesis formulation concerning the possible PBA uses	8
2.2.1. PBA uses through Ethnography, (pre)historical references and experimental benchmark.....	8
2.2.2. Objects of work: production and maintenance processes	9
2.2.2.1. Stone blade production.....	9
2.2.2.2. Hafting production	13
2.2.2.3. Summary	14
2.2.3. Symbolic tools.....	15
2.2.3.1. PBA used in non-mortuary ideological activities.....	15
2.2.3.2. Figurative representations	17
2.2.3.3. PBA used in mortuary rites	18
2.2.3.3. Summary	18
2.2.4. Objects of exchange.....	18
2.2.5. Working tools	19
2.2.5.1. Wood-working tools	19
2.2.5.2. Hideprocessing.....	22
2.2.5.3. Butchering	22
2.2.5.4. Hoeing/tilling	24
2.2.5.5. Polyfunctionality	24
2.2.5.6. Summary	25
2.2.6. Interpersonal violence	25
2.2.6.1. Preliminary archaeological review.....	25
2.2.6.2. Ethnographic references.....	25
2.2.6.3. Archaeological references	25
2.2.6.4. Experimental referents	26
2.2.6.5. Summary	26
2.2.7. Independent variables definition	27
2.2.7.1. Introduction	27
2.2.7.2. Variables regarding the experimental tools	27
2.2.7.3. Variables regarding the experimental activities.....	29
2.2.7.4. Variables regarding the worked material characteristics.....	30
2.3. Dependent variables.....	30

2.3.1. Introduction	30
2.3.1.1. Theoretical and methodological framework	30
2.3.2. Dependent variables	31
2.4. The experimental programme	32
2.4.1. Introduction	32
2.4.2. Making the experimental artefacts	33
2.4.3. Using the experimental artifacts in woodworking activities	33
2.4.4. The animal-related experiments	34
2.4.4.1. Butchering activities	35
2.4.4.2. Hide-processing activities	35
2.4.5. Hoeing activities	36
2.5. Results	36
2.5.1. Introduction	36
2.5.2. Methods and observation procedures	38
2.5.2.1. Residue cleaning and acetate casting	38
2.5.2.2. Used equipment	39
2.5.3. Microscopic variables	39
2.5.3.1. Matrix micro-polish	39
2.5.3.2. Crystal wear	43
2.5.3.3. Micro-chipping	43
2.5.3.4. Rounding	45
2.5.3.5. Lineal traces	45
2.5.4. Macroscopic variables	45
2.5.4.1. Linear Traces	45
2.5.4.2. Micro-chipping	47
2.5.5. Technological wear characterization	47
2.5.6. Butchering wear	50
2.5.7. Hoeing wear	51
2.5.8. Woodworking wear	52
2.5.9. Hide processing wear	55
2.5.10. Quantitative comparison between technological, woodworking and hide-processing use-wear on hornfelds tools	58
2.5.10.1. Introduction	58
2.5.10.2. Macroscopic observation	58
2.5.10.3. Microscopic observation	60
2.5.11. Use-wear traces summary	67
3. Bòbila Madurell—Can Gambús 1–2	71
3.1. General information about the site	71
3.1.1. Chronological characterization of the site	74
3.1.2. The funerary pattern characterisation	74
3.1.3. Anthropological data	78
3.1.4. Domestic structures	82
3.1.5. The artefact characterisation	85
3.1.5.1. Bone tools	85
3.1.5.2. The flaked stone assemblage	86
3.1.5.3. Ceramic assemblage	88
3.1.5.4. Ornaments and grinding tools	88
3.1.6. Subsistence and economy	89
3.2. Polished-bevelled artefacts analysis	91
3.2.1. Sample context and inventory	91
3.2.1.1. Introduction	91
3.2.1.2. Polished-bevelled artefacts from grave goods assemblages	91
3.2.1.3. Polished-bevelled artefacts from the filling of structures containing human remains	93
3.2.1.4. Polished-beveled artefacts from domestic contexts	93
3.2.2. Polished-bevelled artefact integrity and conservation	95
3.2.2.1. PBA integrity	95
3.2.2.2. Polished-bevelled artefact raw materials	96
3.2.2.3. Polished-bevelled artefact production	98

3.2.3. Results of the use-wear analysis	102
3.2.3.1. General results	102
3.2.3.2. The woodworking tools	103
3.2.3.3. Animal work: butchering and hide-processing tools	104
3.2.3.4. The non-used or scarcely used tools	108
3.2.3.5. The artefact technological traces	108
3.2.3.6. The artefact repairing, re-sharpening and discarding	111
3.2.4. Exploring the functional variability	112
3.3. Conclusions	115
3.3.1. Contribution to the economic characterization of activities on the site	115
3.3.2. Contribution to the technical aspects of the PBA production, repairing and sharpening	115
3.3.3. Contribution to the funerary pattern characterisation	116
3.3.4. Contribution to the investigation into the sexual division of labour	116
3.3.5. Contribution to the characterisation of the imported raw materials management	116
3.3.6. Contribution to the general understanding of possible dissymmetrical social relations	117
4. Mas d'en Boixos and the Penedès area occupation.....	119
4.1. General information about the site.....	119
4.1.1. Funerary pattern characterisation	121
4.1.2. The non-funerary record	123
4.1.3. Characterisation of the artefacts and the subsistence patterns	123
4.1.4. The other sampled sites: Camí de Santa Maria dels Horts, Cal Pere Pastor, els Pujols, La Serreta, Mas Pujó and Pujolet de Moja	125
4.1.4.1. Camí de Santa Maria dels Horts.....	125
4.1.4.2. Cal Pere Pastor	125
4.1.4.3. Els Pujols	125
4.1.4.4. La Serreta and Serreta Nord	125
4.1.4.5. Mas Pujó.....	126
4.1.4.6. Pujolet de Moja	127
4.1.5. Conclusions	127
4.2. Analysis of polished-bevelled artefacts	127
4.2.1. Sample context and inventory	127
4.2.2. PBA integrity and preservation	128
4.2.3. PBA raw materials.....	129
4.2.4. PBA production.....	129
4.2.4.1. Production	129
4.2.4.2. Technical evidence	130
4.2.5. Use-wear analysis results	132
4.2.6. Data interpretation.....	137
4.3. Conclusions.....	138
5. The prehistoric mines of Gavà.....	141
5.1. General information about the site.....	141
5.1.1. Chronological characterisation of the site.....	142
5.1.2. Characterisation of the funerary pattern.....	144
5.1.3. The mines	147
5.1.4. Characterisation of the artefacts and the subsistence patterns	149
5.2. PBA analysis	151
5.2.1. Sample context and inventory	151
5.2.2. PBA integrity and raw material.....	151
5.2.2.1. Technical evidence	151
5.2.2.2. Shape	153
5.2.2.3. Measure and size characteristics	153
5.2.3. Use-wear analysis results	154
5.2.3.1. Technological traces	159
5.2.4. Interpretation of the use-wear analysis results	159
5.3. Conclusions.....	162

6. Vallès-Barcelonès and Penedès areas: a comprehensive approach	165
6.1. Introduction.....	165
6.2. The main productive activities	165
6.2.1. The raw materials	165
6.2.2. PBAs as objects of work	169
6.2.2.1. Preforms and local raw materials procurement.....	169
6.2.2.2. Production of the PBAs.....	171
6.2.3. PBAs as working tools	174
6.2.3.1. The maintenance of the PBAs	174
6.2.3.2. The productive processes in which PBAs were used as working tools.....	174
6.2.4. PBAs form, function and raw materials	175
6.3. PBAs, funerary pattern and social inequalities	175
6.3.1. PBAs representativeness in Pit Burial funerary contexts.....	175
6.3.2. The role of PBAs in the funerary pattern and its interpretations	176
6.3.3. The presence of inequalities or social differences.....	178
6.3.3.1. PBAs distribution	178
6.3.3.2. PBAs raw materials distribution.....	179
6.3.3.3. The PBAs function and morpho-technological distribution.....	179
6.4. Differences between the PBAs used by the Vallès-Barcelonès and Penedès communities	180
6.4.1. PBAs distribution and productive activities.....	180
6.4.2. Raw materials and their participation in exchange networks.....	181
6.4.3. Technological processes	182
7. Conclusions.....	183
7.1. The main productive activities	183
7.2. The funerary pattern.....	184
7.3. The differences between the communities	185
7.4. The presence of asymmetries or social differences.....	187
