Preface	ix
Introduction	1
<i>Evangelia Pişkin</i>	
1. Bone Refits at Abric Romani (Barcelona, Spain) and Riparo Tagliente (Verona, Italy): Testing Neanderthal Use of Space and Post-depositional Disturbances	5
<i>Marta Modolo, Jordi Rosell, Ruth Blasco, Maria Chiara Turrini, and Ursula Thun Hohenstein</i>	
1. Introduction.....	5
2. Abric Romani, level I and sublevel Ja	6
3. Riparo Tagliente, level 37	6
4. Materials and methods.....	7
5. Results.....	8
5.1. Abric Romani, level I: taphonomical and zooarchaeological data	8
5.2. Abric Romani, level I: refits.....	8
5.3. Abric Romani, sublevel Ja: taphonomical and zooarchaeological data.....	8
5.4. Abric Romani, sublevel Ja: refits	9
5.5. Riparo Tagliente, level 37: taphonomical and zooarchaeological data.....	16
5.6. Riparo Tagliente, level 37: refits.....	16
6. Discussion.....	17
7. Conclusion	23
2. Animal Remains from an Early Bronze Age Site – Tel Erani (Israel).....	31
<i>Piotr Wojtal, Krzysztof Wertz, Teresa Tomek, Lembi Lõugas, Marcin Czarnowicz and Agnieszka Ochał-Czarnowicz</i>	
1. Introduction	31
2. Stratigraphy of the site.....	32
3. Material and Methods	33
4. Results.....	34
4.1. Crabs (Brachyura).....	34
4.2. Mollusks	34
4.3. Fishes	34
4.4. Birds.....	34
4.5. Small mammals	35
4.6. Large mammals	35
4.7. Signs of human activity – cut marks and burnt bones	37
4.8. Signs of human activity – bone tools and modified bones	38
4.9. Dog activity – gnawing and digested bones	38
4.10. Root etching.....	38
4.11. Trampling marks	42
4.12. Calcite precipitate	42
4.13. Trench P/Q.....	42
5. Discussion.....	42
5.1. Mollusks	42
5.2. Birds.....	43
5.3. Small mammals	43
5.4. Large mammals.....	43
6. Conclusions.....	43
3. Animal Husbandry of Funnel Beaker Culture: Case Study of Mozgawa Site (Poland, Lesser Poland).....	47
<i>Jarosław Wilczyński, Sylwia Pospuła-Wędzicha, Krzysztof Wertz, Lembi Lõugas, Magdalena Moskal-del Hoyo, Marta Korczyńska and Marek Nowak</i>	
1. Introduction.....	47
2. Material and methods	48

3. Results.....	48
3.1. Results – animal bone assemblage	48
3.2. Results – human activity.....	49
3.3. Results – animal activity.....	55
4. Discussion.....	55
5. Conclusion.....	57
4. An Overview of Zooarchaeological Research in Brazil: The role of Multiproxy Analyses	61
<i>Rosa Cristina Corrêa Luz de Souza, Albérico Nogueira de Queiroz and Olivia Alexandre de Carvalho</i>	
1. Introduction.....	61
2. At the Beginning: The importance of Zoological Collections for Comparison.....	62
3. Brazilian Multiproxy Analyses Example: Shellmounds, Nature of the Samples, Case Studies and Results	62
3.1. Fishes	62
3.2. Molluscs.....	63
3.3. Crustaceans: Crabs.....	69
4. Comments and Final Considerations	69
5. Exploring the Zooarchaeological Evidence of Otariids Exploitation by Terrestrial Hunter-Gatherers Along the Western Coast of San Matías Gulf, Argentina	75
<i>Florencia Borella and G. Lorena L’Heureux</i>	
1. Introduction	75
1.1. Archaeological background in the area.....	76
1.2. Characteristics of pinnipids from the area	77
2. Material and methods	78
3. Results	78
4. Discussion and conclusions	79
6. Dogs and Cats at Medieval Komana, Turkey.....	85
<i>Evangelia Pişkin and Özgen Sütçü</i>	
1. Introduction	85
2. The archaeological site of Komana	85
3. Methods	87
4. Results.....	87
4.1. Sector HTP01: skeletal finds, ageing, modifications	89
4.2. Sector HTP02: skeletal finds, ageing, modifications	90
4.3. Sector HTP03: skeletal finds, ageing, modifications	91
5. Pathology	91
6. Osteometry	93
7. Discussion	93
8. Conclusions	99
7. A Multidisciplinary Approach to Zooarchaeology: Human-Animal Relationships at Tarquinia (Italy).....	103
<i>Ornella Prato</i>	
1. Zooarchaeology in a complex society	103
2. Etruscans and Tarquinia.....	103
3. Zooarchaeology and iconography at Tarquinia	104
4. Deer and the Etruscans	105
5. Conclusion	106
8. The Master and His Best Friend. The Role of the Dog in Human Life and Beyond in the South-Eastern Alpine Region During Roman Times	111
<i>Anja Ragolič and Borut Toškan</i>	
1. Introduction.....	111
2. South-eastern Alpine region in the Roman Age	112
3. The dog in prehistoric south-eastern Alpine region.....	112

4. Case studies	113
4.1. Dog finds in ditches and waste pits: case-study NUK II (Emona)	113
4.2. Dog finds in human graves: case-study Križišče	114
4.3. Dog finds in wells: case-study Kozolec (Emona)	116
4.4. Symbolic role of dog in Late Antiquity: case-study Pristava	118
5. Conclusion	119
9. Pastoral Economy in the Late Bronze Age City of Şapinuva, Turkey A Comparison of Zooarchaeological and Textual Evidence.....	123
<i>Evangelia Pişkin and Gamze Durdu</i>	
1. Introduction	123
2. The Hittite empire and Şapinuva	123
2.1. The Hittites	123
2.2. Şapinuva	124
3. The structure of Hittite animal husbandry from the texts	125
3.1. Sheep and goat abundance and age composition.....	126
3.2. Animal products	126
3.3. Who owns the flocks?	127
3.4. Herdsmen.....	128
3.5. Pastures – nomadism – transhumance	128
4. Zooarchaeological materials, hypotheses and methods	129
5. Data and species proportions	130
6. Mortality profiles	131
6.1. Payne’s method, complete mandibles.....	131
6.2. Payne’s method, all data	133
6.3. Grant and Greenfield and Arnold’s system, all data	137
7. Discussion	138
8. Conclusions	140
10 The Importance of Combining Literary and Archaeozoological Data to Understand the Role of Animals in Ancient India (1200 BCE to 300 CE)	143
<i>Gauri Bedekar</i>	
1. Introduction.....	143
2. Literary sources of animals in ancient India	144
2.1. Overview of Literary Evidence from 1200 BCE to 300 CE.....	144
2.2. Chronology of Literary evidence.....	145
2.3. Evidence	145
2.4. Animals as source of food.....	145
2.5. Milk and milk derivatives.....	146
2.6. Animals as source of raw material.....	146
2.7. Animals as source of transport and labour.....	148
2.8. Animals and Religion	149
2.9. Abstract and intangible aspects of human-animal interaction	150
2.10. Classification of animals.....	151
2.11. Practices associated with animals	151
2.12. Myths and Beliefs Associated with Animals	152
3. Correlation of Archaeozoological and Literary Evidence	153
3.1. Domestic cattle (<i>Bos indicus</i>)	153
3.2. Buffalo (<i>Bubalus bubalis</i>).....	153
3.3. Domestic sheep (<i>Ovis aries</i>).....	153
3.4. Domestic goat (<i>Capra hircus</i>).....	153
3.5. Domestic pig (<i>Sus domesticus</i>)	154
3.6. Horse (<i>Equus caballus</i>)	154
3.7. Domestic Ass (<i>Equus asinus</i>).....	154
3.8. Camel (<i>Camelus dromedaries</i>)	154
3.9. Domestic dog (<i>Canis familiaris</i>).....	154
3.10. Domestic Cat (<i>Felis catus</i>).....	154
3.11. Indian bison (<i>Bos gaurus</i>).....	154
3.12. Wild boar (<i>Sus Scrofa</i>).....	154
3.13. Elephant (<i>Elaphus maximus</i>).....	154

Contents

3.14. Tiger (<i>Panthera tigris</i>).....	155
3.15. Lion (<i>Panthera leo</i>).....	155
3.16. Leopard (<i>Panthera pardus</i>).....	155
3.17. Fox (<i>Vulpes bengalensis</i>).....	155
3.18. Wolf (<i>Canis lupus</i>).....	155
3.19. Rhinoceros (<i>Rhinoceros unicornis</i>).....	155
3.20. Bear (<i>Ursus</i>).....	155
3.21. Deer/Sambar/Antelope (<i>Cervus sp.</i> , <i>Axis sp.</i> , <i>Tetracerus quadricornis</i> , <i>Antelope cervicapra</i>).....	155
3.22. Nilgai (<i>Boselaphus tragocamelus</i>).....	155
3.23. Hyaena (<i>Hyaena hyaena</i>).....	155
3.24. Hare (<i>Lepus nigricollis</i>).....	155
3.25. Porcupine (<i>Hystrix indica</i>).....	155
3.26. Mongoose.....	156
3.27. Monkey/Langur.....	156
3.28. Monitor Lizard (<i>Varanus bengalensis</i>).....	156
3.29. Mole rat/ Bandicoot rat, Common rat (<i>Bandicota bengalensis</i> , <i>Rattus rattus</i>).....	156
3.30. Crocodile (<i>Crocodylia general</i>), Ghariyal (<i>Gavialis gangeticus</i>).....	156
3.31. Turtle/tortoise.....	156
3.32. Fish.....	156
3.33. Serpents.....	156
3.34. Birds.....	156
4. Conclusion.....	156
Authors' Biographies.....	159
