Lists of Figures	vii
Lists of Tables	xi
Abbreviations	xiii
Abstract	xiv
Chapter 1 Introduction	1
1.1 A brief history of the metallurgy of zinc and brass	1
1.2 Problems and research gaps in the study of Chinese zinc distillation technology	3
1.3 Research aims and objectives	6
1.4 Structure of the research	7
Chapter 2 Historical and Technological Background to Zinc Production in China	9
2.1 The history of brass and zinc in China	9
2.1.1 Accidental brass	9
2.1.2 Imported brass	9
2.1.3 Cementation brass	9
2.1.4 Speltering brass	10
2.2 The uses of brass and zinc in Ming and Qing China	10
2.2.1 Brass coins	10
2.2.2 Brass artefacts	11
2.2.3 Paktong	13
2.2.4 Exports	13
2.3 Traditional zinc smelting in modern China	14
2.4 Summary	21
Chapter 3 Theoretical Framework and Methodology	23
3.1 Theoretical framework	23
3.1.1 Technology, the <i>chaîne opératoire</i> , technological choice/style and organisation of production	23
3.1.2 Historical texts	24
3.1.3 Ethnoarchaeology	24
3.2 Methodology	25
3.2.1 Sample selection	25
3.2.2 Optical Microscopy (OM)	26
3.2.3 Scanning Electron Microscopy - Energy Dispersive Spectrometry (SEM-EDS)	27
3.2.4 Electron Probe Micro-analyser - Wavelength Dispersive Spectrometry (EPMA-WDS)	27
3.2.5 X-Ray Diffraction (XRD)	28
3.2.6 Refiring experiments	28
Chapter 4 Analyses of Zinc Smelting Remains in Fengdu	31
4.1 Zinc smelting sites in Fengdu	31
4.1.1 Three Gorges Archaeology	31
4.1.2 Zinc smelting sites	32
4.2 Miaobeihou (YM)	33
4.2.1 Site description	33
4.2.2 Results	35
4.2.2.1 Minerals	35
4.2.2.2 Coal	38
4.2.2.3 Zinc	41
4.2.2.4 Retorts	43
4.2.2.5 Slag	56
4.2.2.6 Zinc-rich crusts	58
4.2.3 Discussion	58
4.2.3.1 Retort design	58
4.2.3.2 The charge	61
4.2.3.3 Conditions of reduction and condensation	63
4.3 Puzihe (YP) and Muxiexi (CM)	64
4.3.1 Site description	64
4.3.2 Results	65
4.3.2.1 Retorts	65
4.3.2.2 Slag	71
4.3.3 Discussion	72

4.4 Zinc production in Fengdu	74
4.4.1 Zinc distillation technology in Fengdu and <i>Tian Gong Kai Wu</i>	74
4.4.2 Organisation of production	75
4.4.3 Scale of production	78
Chapter 5 Analyses of Zinc Smelting Remains in Shizhu	79
5.1 Zinc mines and smelting sites in Shizhu	79
5.1.1 Geology	79
5.1.2 Historical records	79
5.1.3 Field surveys	81
5.2 Yushi Cave (Y)	85
5.2.1 Site description	85
5.2.2 Results: minerals	85
5.3 Dafengmen (SD)	88
5.3.1 Site description	88
5.3.2 Results	89
5.3.2.1 Retorts	89
5.3.2.2 Slag	94
5.4 Discussion	98
5.4.1 Retort design	98
5.4.2 The charge	100
5.4.3 Final remarks	101
Chapter 6 Zinc Production in Chongqing and Beyond	103
6.1 Zinc smelting sites in Fengdu and Shizhu: a comparison	103
6.1.1 Technical aspects	103
6.1.2 Choice of location	104
6.1.3 Explaining the differences between the two groups of sites	108
6.2 The technological tradition of Chinese zinc distillation	109
6.2.1 The procurement of oxidic zinc ores	109
6.2.2 The use of coal as fuel and reducing agents	110
6.2.3 Retorts for zinc distillation	111
6.2.4 Rectangular furnaces	112
6.3 Zinc distillation in India and China	113
6.4 Summary	116
Chapter 7 The Significance of Zinc Production in Ming and Qing China	117
7.1 Chinese zinc at home	117
7.1.1 Two brass making processes: cementation vs. speltering	117
7.1.2 Advantages of speltering process over cementation process	122
7.1.3 The role of zinc in coinage	125
7.2 Chinese zinc in the world	126
7.2.1 Chinese zinc in India	126
7.2.2 Chinese zinc in Europe	126
Chapter 8 Conclusions and Future Work	129
8.1 Zinc smelting in Chongqing and beyond	129
8.2 Zinc distillation, crucible smelting and technical ceramics	130
8.3 On the origins of zinc distillation in China	130
8.4 History, archaeology, science and ethnography	132
References	133
Appendix 1 Chinese Dynasties	143
Appendix 2 Notes on Weights and Measures	144
Appendix 3 Formulae of Minerals and Phases	145
Appendix 4 Historical Records about Mining and Smelting in Fengdu and Shizhu	146
4.1 <i>Ming Shi</i> (History of the Ming Dynasty) [1739]	146
4.2 <i>Local Gazetteer of Shizhu</i> [1775]	146
4.3 <i>Revised Local Gazetteer of Shizhu</i> [1843]	147
4.4 <i>Revised Local Gazetteer of Fengdu</i> [1927]	147
