List of Figures	ix
List of Tables	x
Preface	xi
1. Towards an analysis of ancient navigation in the Circle of the Strait of Gibraltar	1
<i>Soledad Solana Rubio and Felipe Cerezo Andreo</i>	
1. Introduction: The Strait of Gibraltar.....	1
1.1. The Circle of the Strait	1
2. Objectives and Methodology	3
3. Archaeological Data from Bibliographical and Historiographical Review	4
3.1. Comprehensive Research.....	4
3.2. Regional Research	4
3.3. Ancient Underwater Archaeological Sites in the Strait of Gibraltar.....	9
4. Discussion.....	9
4.1. Some Issues Concerning the Interpretation of Data	18
5. Conclusions.....	20
5.1. The Synergy Between Research and Enhancement.....	20
Acknowledgements.....	21
Bibliography	21
2. An Archaeology of Homeric Sirens: Mythology and Maritime Navigation in the Graeco-Roman World	27
<i>Mieke Kassulke</i>	
1. Introduction	27
2. The Sirens as a Case Study	27
3. Maritime Navigation in the Classical World	29
3.1 Headlands, Straits, and Offshore Islands	29
3.2 Navigation and Cosmology.....	30
4. Where Poetry meets Ancient Seafaring	31
4.1. Circe's Onward Sailing Instructions	31
4.2. Odysseus Warns His Crew	32
4.3. Odysseus Encounters the Sirens	33
5. Archaeology and Conclusion	34
Bibliography	35
Classical Sources Reference Index	35
3. The Heritage Management of Traditional Working Boats in the Maltese Context: A Case Study of the <i>Firilla</i> and <i>Dghajsa tal-Latini</i>	39
<i>Julia Zerafa</i>	
1. The Maltese Islands	39
2. Aim and Method	40
3. The Traditional Boats of Malta.....	41
3.1 Studies on Traditional Boats	43
4. Heritage Management of Boats	43
4.1 Appraising the Heritage Value of Traditional Boats	43
4.2 Heritage Management Approaches for Historic and Traditional Boats.....	44
4.3 Local Legislation, Schemes and Grants.....	44
4.4 Current Heritage Management Initiatives	45
5. The <i>Firilla</i>	46
5.1 The <i>Firilla</i> in Context.....	46
5.2 Remaining Sources of Evidence	47
5.3 Heritage Values of the <i>Firilla</i>	48
5.4 Current Situation.....	48
6. The <i>Dghajsa tal-Latini</i>	49

6.1 The Dghajsa tal-Latini in Context.....	49
6.2 Remaining Sources of Evidence	50
6.3 Heritage Values of the Dghajsa tal-Latini	51
6.4 Current Situation	52
7. Case Study Results	52
7.1 Heritage Management Options	52
7.2 Applying Results to other Maltese Traditional Watercraft.....	53
8. Conclusion	53
Acknowledgements.....	54
Bibliography	54
4. Knossos-Thera-Melos: Some Thoughts on a possible Bronze Age Aegean Sailing Ring	57
<i>Angiolo Querci</i>	
1. Introduction.....	57
2. Akrotiri, Phylakopi and their Contacts with Knossos: a Brief Overview.....	59
3. The Ships	59
4. Climatic Conditions	60
5. The “Southwestern Ring”	62
6. Conclusions.....	64
Bibliography	65
5. From Discovery to Display. The wreck Portiței A / A Roman Empties Transporter off the Black Sea Coast of Romania.....	67
<i>Max Fiederling, Thomas Simeth, Felix Moser</i>	
1. The Discovery of the Wreck and the Research Project	67
2.1 A 3D Reconstruction Proposal of the Ship	69
2.2 The Mobile Augmented Reality Exhibition Guide “ISTROS” / Analysis and Evaluation	70
3.1 Physical Exhibition.....	70
3.2 Technical System Design.....	71
4.1 Technical Considerations.....	72
4.2 App Structure.....	72
4.3 AR Scenes.....	73
4.4 3D Ship Reconstruction Proposal in AR	75
4.5 App Usage Evaluation	75
Bibliography	77
6. Underwater Photogrammetry and VRTI Techniques at the Submerged “Qaitbay Fort” Site of Alexandria.....	79
<i>Mohamed Abdelaziz and Mohamed Elsayed</i>	
1. Introduction.....	79
2. Underwater Excavations from 1994 to Today and Documentation Context.....	79
3. Methods and Techniques of Data Acquisition	80
3.1. Equipment and Materials	81
3.2. Data Acquisition.....	81
3.3 Photography	82
3.4. Georeferencing.....	82
4. Data Processing	82
4.1. The Metashape Software (formerly Photoscan).....	83
4.2. Building a Dense Point Cloud and Mesh with low Computer Capability	84
4.3. Workflow.....	84
4.4. Orthophotos and Digital Elevation Model (DEM)	84
4.5. Conclusion	84
5. The Virtual Reflectance Transformation Imaging (VRTI): Application on Two 3D Models of Red Granite Bases of Statues Still Underwater	85
5.1. Workflow.....	88
5.2. Processing Pipeline	88
Acknowledgements.....	88
Bibliography	88

7. Into the Bowels of a Ship. The Evolution of the Mast-step in the Mediterranean (7th century BCE–3rd century CE): A Structural and Functional Analysis.....	91
<i>Georgia-Dimitra Kyriakou</i>	
1. Introduction.....	91
1.1 Archaic Period (700–480 BCE).....	93
1.2 Classical Period (480–323 BCE).....	94
1.3 Hellenistic Period (323–50 BCE).....	94
1.4 Roman Period (50 BCE – 3rd century CE).....	95
2. Mast-Step and Keelson.....	100
3. Sister-Keelsons.....	100
4. Discussion.....	101
4.1 Systems of Placement.....	101
4.1.1 First type.....	101
4.1.2 Second type.....	101
4.1.3 Third type.....	102
4.2 Position into the Hull.....	103
4.3 Movable Mast-Steps?.....	103
4.4 The Main and the Adjacent Cavities.....	104
5. The Mast, the Mast-Step and the Mast Partners.....	105
6. Mast Partners.....	106
7. Conclusions.....	106
Bibliography.....	108
8. Health and Disease on Roman Ships Sources and Proxies for the Health Biographies of Sailors and Maritime Workers in the Roman Mediterranean.....	113
<i>Pascal Hoffmann</i>	
1. Introduction.....	113
2. Sources.....	114
3. Effects of Physical Labour and Permanent Damages.....	115
3.1 Sway and Vibration.....	115
3.2 Injuries.....	115
3.3 Specific Physiognomy and Effects of Long-term Maritime Activity.....	116
3.4 Diet, Insufficiencies and Toxins.....	119
3.5 Nutritional Intake.....	119
3.6 Toxins.....	120
3.7 Diseases and Parasites.....	120
4. Other Hazards.....	121
4.1 Warfare & Crime.....	121
4.2 Fire.....	122
4.3 General Nautical Hazards.....	123
5. Concluding Remarks.....	124
Acknowledgments.....	126
Bibliography.....	126
